**PLEASE READ PRIOR TO PURCHASE** - Material Consideration - Due to the nature of natural stone, it is expected that products will vary in appearance, colour, texture, grain, shape, size and markings. No two panels will be the same, and that is what provides the beauty of natural stone products. It is a good idea to blend tiles / pavers from all crates prior to laying. Products have an acceptable size tolerance of up to +/- 2.5mm, so it is important to arrange pavers by thickness and incorporate a grout space when laying. Small amounts of chipping as well as natural marks are considered acceptable in natural stone products. It is the responsibility of the user to inspect the tiles /pavers prior to laying as claims will not be honoured after products have been installed. Excessive chipping, cracks or size variation may be eligible for claim. We Recommend sealing this product.
